

Miller & Martin's Healthcare Litigation team strives to recommend cost-effective and practical litigation strategies that take into account both the merits of substantive legal issues and client's commercial priorities to achieve a successful outcome consistent with the client's business goals.

Our Healthcare Litigation Group is comprised of highly experienced and tested litigators who provide comprehensive representation to a wide variety of healthcare entities. The skills of Miller & Martin's trial attorneys, combined with the firm's well-rounded and in-depth knowledge of healthcare law, advances the goal of moving cases toward a successful outcome.

The healthcare litigation team has represented various healthcare entities and industry partners in a wide variety of cases, including tort claims, complex business and contract disputes, managed care disputes, antitrust claims, administrative litigation, non-compete litigation, medical staff representation, nursing home failure of care violations, healthcare fraud defense, Stark claims, False Claims Act cases and white collar defense, intellectual property and false advertising litigation, leasing disputes, class actions and insurance coverage for claims.
