

## Jason McCarter Presents on Revised FTC Safeguards Rule Compliance at 2023 Auto Intel Summit

*Posted in Event on February 17, 2023*

Miller & Martin Litigation Member and Automotive Practice Chair [Jason McCarter](#) will present at the Auto Intel Summit held April 18-20, 2023 in Raleigh, North Carolina in connection with the National Remarketing Conference's Spring Summit. Mr. McCarter's session titled "[Safeguarding Customer Data, Revised](#)" on April 18 will cover the recent changes to the FTC's GLB Safeguards Rule focused on data security, the now imminent compliance deadline, and guidance on tackling the changes without breaking the bank.

The FTC's recent changes to the GLB Safeguards Rule for consumer data protection have an extended, but now imminent, compliance deadline of June 9, 2023. Most auto lenders and dealers are covered, with a few exceptions and with consequences to their vendors. Industry guidance to date has been somewhat ominous, so Mr. McCarter will provide AIS attendees realistic compliance steps for their automotive businesses.
